Submission on Case reference: PA08-319566 2024 Shannon Technology & Energy Park.

On behalf of Green and Gold Composting Ltd, I wish to support the proposed power plant project at Shannon Technology & Energy Park.

North Kerry has experienced massive rural depopulation and this project would provide sustainable employment in the region.

The development of this power plant would also ensure a sustainable source of energy supply and would also future proof the region for the transition to a hydrogen powered plant.

It is vital this power plant is granted planning permission in order to copper fasten Ireland's energy supply into the future and create a magnitude of direct and indirect economic and employment opportunities for the North Kerry and Shannon regions.
