**Date:** 02 August 2024

**Re:** Proposed development known as North Irish Sea Array ("NISA") Offshore Wind Farm  
Located off the coast of Counties Dublin, Meath and Louth ([www.northirishsearraysid.ie](http://www.northirishsearraysid.ie))

Dear Sir / Madam,

An Bord Pleanála has received your recent submission and fee in relation to the above-mentioned proposed development and will take it into consideration in its determination of the matter. A receipt for the fee lodged is enclosed.

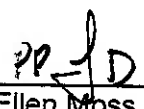

The Board will revert to you in due course with regard to the matter.

Please be advised that copies of all submissions/observations received in relation to the application will be made available for public inspection at the offices of Dublin City Council, Fingal County Council, Meath County Council, Louth County Council and at the offices of An Bord Pleanála when they have been processed by the Board.

More detailed information in relation to marine infrastructure development can be viewed on the Board's website: [www.pleanala.ie](http://www.pleanala.ie).

If you have any queries in the meantime, please contact the undersigned officer of the Board or email [marine@pleanala.ie](mailto:marine@pleanala.ie) quoting the above mentioned An Bord Pleanála reference number in any correspondence with the Board.

Yours faithfully,

  
Ellen Moss  
Executive Officer

Garryhill,

O' Hanlons Lane,

Malahide,

Co Dublin

29 July 2024

The Secretary,

An Bord Pleanála.

Dear Planner

We would like to make the following submission on behalf of the residents of O Hanlons Lane, Malahide.

Whilst we are fully supportive of the efforts to improve the national grid, and reduce our dependency on fossil fuel, we wonder if there isn't a better way to route the NISA cable between Lissenhall/Broadmeadow Estuary and Belcamp.

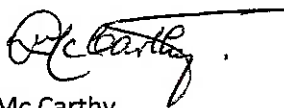

The proposed routing and consequent partial and full closure of large sections of heavily trafficked roads will result in enormous inconvenience for many thousands of people. It will significantly impact public transport and delivery services and also affect the supply of emergency services to large areas of the northern suburban area. Diversion routes will result in unsuitably big vehicles using minor roads thereby increasing the risk of accidents and further road blockages. The negative economic and social impact will be very significant and widely spread.

We believe that Eirgrid are hoping to route a similar type of cable through industrial and agricultural lands to Belcamp substation, thereby reducing the impact on motorists, bus operators and delivery trucks, and, of course, emergency vehicles?

We respectfully request that this Statkraft application be refused and that they are requested to route the NISA cable through agricultural and industrial land in as much as is possible.

Please find €50 fee included.

Yours Sincerely,

Donal Mc Carthy.

Hon Secretary O'Hanlons Lane Residents Association.
