REF: ABP-320954-24

Planning Authority Reference Number 20081365

FAO: Mr Ronan Megannety,

We received a letter from ABP with regard to the resubmission to the planning appeals process of the above case and were invited to make a further submission or observation.

We have already made two submissions October 2021 and November 2021 in case reference **ABP-311366-21** and we wish to have both of those submissions / observations carried over into this reactivated planning appeal.

We are also adding the following submission / observation points:

- Under a section 5 enquiry WCC consider this development is not exempt and have yet to act on their decision, instead opting for an enforcement notice for the installation of slats and a loading ramp. Then referring it onto ABP.
- In 2022 Premier Pigs Ltd were fined 500 euro in Wexford circuit court for causing emissions. These are still ongoing and spread dreadful odours which travel with the wind direction.
- Under the Aarhus convention we are entitled to clean air and we have the right to raise concerns or objections to development in our locality.
- The shed which is being used to house the pigs is larger than what permission was granted for so therefore can house more animals. The exact measurement of the shed or the number of pigs it is possible to house there has never been stated in any correspondence which we have seen.
- EPA has stated that capacity and not the stated number of animals is the relevant factor.
- The site is within the zone of influence of an SAC therefore it is not exempted development. There is a river stream close to the farm, which enters the Sally Stream, then the Drinagh Intake which borders the South Slob lands.

Yours Sincerely,
Marian & Thomas Boggan

Marian Boggan
