To whom it may concern,

I am writing this submission to highlight my concerns with regard to Health Implications from the proposed Tullacondra Wind Farm.

As a nurse who works with children in the special needs sector, I can not state highly enough the potential effects the Turbines could have on some children.

Noise and Light Flicker will most definitely be a trigger to some of our younger vulnerable community members.

Any adults or children who suffer from conditions such as Epilepsy or Autism for example, would be highly at risk.

The overall stress and anxiety of the project would also have a negative effect on the mental health of both young and old.

I feel it is important to highlight these concerns as some members of this vulnerable group may not be in a position to speak up for themselves.

Kind Regards

Deirdre Daly
