4TH July, 2025

A Chara,

I refer to the above case reference 322787, I live 800 metre from proposed T1 and T2. It is most disappointing and disturbing that this proposal has been inflicted on us. I am very worried about the noise disturbance and flicker. I am currently on medication to help me sleep so I am extremely worried about the noise and flicker from proposed turbines. I understand that the medical name for this is Amplitude Modulation (AM) which can cause pressure, vibration and unease. A very worrying future indeed!!!

My other main concern is from a farming point of view. We have been dairy farming here for 4 generations. Our son would love to carry on the tradition but it is quite worrying at the moment considering we will be less than 800 metres from these 175m turbines. I understand from the vestas 2007 manual, section 2 re 'Mechanical operating and Maintenance Manual' stating "do not stay within a radius of 400 metres (1300 ft) from turbine.....how are we supposed to farm with these turbines right outside our boundary fence.

I am deeply saddened that my son has now decided to buy a house a number of miles away from this farm as he cannot take the risk of living underneath turbines, a very sad future indeed.

Thank you for taking the time to read this.

Mise le meas

Agnes Buckley
