Re: Limerick City Greenway (UL to Annacotty)**Notification to An Bord Pleanála of Limerick City & County Council's determination for the production of an Environmental Impact Assessment report for the proposed Limerick City Greenway (UL to Annacotty)**

Dear Ms Ingle,

Ryan Hanley on behalf of Limerick City & County Council (LCCC) has carried out an Environmental Impact Assessment screening for the proposed Limerick City Greenway (UL to Annacotty) project. In accordance with Section 50 (1)(c) of the Roads Act 1993 (as amended), LCCC has determined the *"construction of a proposed public road or the improvement of an existing public road would be likely to have significant effects on the environment"* and therefore is required to produce an Environmental Impact Assessment report for the proposed Limerick City Greenway (UL to Annacotty) project.

The proposed greenway will extend between the River Goody bridge and Cappamore junction, and it will comprise of 5.5km of proposed shared paths, cycle lanes and footpaths. Please refer to the Location Map for an overview of the route. This proposed greenway is part of a wider cycle network as detailed in the Limerick Development Plan 2022-2028 and in the Limerick Shannon Metropolitan Area Transport Strategy 2022.

Should have any questions about the project please contact the undersigned.

Yours sincerely

Brendan Larkin
Associate

CC: Sinead Kennedy, LCCC Project Manager
Rosie O'Donnell, LCCC Planner
Fintan Morrin, The Planning Partnership
