N58 Strade River Bridge Rehabilitation Works in Strade, County Mayo

Notice of Application to An Coimisiún Pleanála for Approval

Notice is hereby given that Mayo County Council proposes to seek the approval of An Coimisiún Pleanála under Section 177AE of the Planning and Development Act 2000 (as amended) for N58 Strade River Bridge Rehabilitation Works in the townlands of Knockshanbally and Strade, County Mayo.

The proposed development consists of the rehabilitation of the existing Strade River Bridge on the N58 National Secondary Road with the replacement of the existing bridge deck with a new single span deck formed by precast prestressed concrete beams with an in situ concrete deck infill. The new deck has a clear span of 10.8m and a width of 11.8m. New independent foundation supports are to be located behind the existing abutment walls with the proposed foundations comprising reinforced concrete bored cast in place piles. The existing bridge pier and concrete apron are to be demolished to improve water conveyance through the structure with a new reduced height concrete apron constructed below the bridge to maintain the existing low flow channel in the Strade River.

The existing carriageway width is to be maintained across the new superstructure with new minimum 2m wide concrete verges provided on both sides of the carriageway. Design flood levels require the vertical alignment of the existing road to be raised by 450mm immediately at the bridge location with tie-ins to existing road levels provided on the approaches. New 1.25m high reinforced concrete masonry clad parapets will be constructed over the length of the bridge with vehicle safety barriers installed on both verges approaching and crossing the bridge.

Ancillary works include boundary wall reconstruction and diversion of existing telecom and electricity services crossing the development site.

A Natura Impact Statement (NIS) has been prepared in respect of the proposed development.

An Coimisiún Pleanála may give approval to the application for development with or without conditions or may refuse the application for development.

Plans and particulars of the proposed development, including the Natura Impact Statement, will be available for inspection free of charge, or for purchase at a fee not exceeding the reasonable cost of making a copy, for a period of 6 weeks from *Monday 18th August 2025 to Monday 29th September 2025* (inclusive of both dates) at the following locations:
