Hi Sinead,

Please be advised that I have notified the HSA of the application, as requested in Board Direction for pre-application case ABP-317654-23.

The notification is dated today, 9th September 2025, and the deadline for submissions on our application to the HSA has been outlined as being within seven weeks from today - 27th October 2025. We recognise that this will impact the determination periods for this application by the Commission and we are happy to accept same.

Please find attached letter issued to the HSA notifying them of the application, as well as updated list outlining Confirmation of the Prescribed Bodies informed. The project website will also be updated to reflect these changes. Please advise if you require an updated CD/hard copy with these documents included, and this can be arranged for delivery to your offices.

It would be appreciated if you could confirm receipt of the attached.

Kind regards,

Heather

Hi Sinead,

Thank you for your email.

Please be advised that there was an error in processing the documentation for this application and the Environmental Protection Agency was incorrectly notified of this application instead of the Health & Safety Authority (HSA).

It is proposed to solve this by issuing the HSA a copy of the application documentation as soon as possible and in that correspondence, we will outline the required seven week observation period commencing on date of issue of this revised application notification.

It is understood that this will impact on the determination periods for this application by the Commission and we are happy to accept same.

Can you confirm if the above approach is acceptable to the Commission?

Kind regards,

Heather
