Observation details

5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write.

You can also insert photographs or images in this box. (See part 6 – Supporting materials for more information).

My house is in very close proximity to this proposed development and I am very concerned about noise from this wind farm, both during construction, but in particular when this farm is operational. Myself, my family and neighbours are employed and need to be able to keep regular sleeping patterns in order to function at the required levels in our roles. I am also very concerned about the effect that the noise, and resulting disrupted sleep patterns, will have on mine and my family's and neighbours mental health. I am also very concerned that noise regulations will not be complied with. I have been made aware that Statkraft have failed to comply with noise regulations on other developments, so this has accelerated my concern. If Statkraft have failed to comply with noise regulations on other developments, what is to stop them from breaching the same regulations, or other regulations, on this development? The effect this proposed development will have on wildlife and the visual impact is also worrying.

Supporting materials

6. If you wish, you can include supporting materials with your observation.

Supporting materials include:

- photographs,
- plans,
- surveys,
- drawings,
- digital videos or DVDs,
