Observation details

5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write.

You can also insert photographs or images in this box. (See part 6 – Supporting materials for more information).

We live in a Bungalow we built in 1969 across from the proposed wind farm at Ballinla. We live slightly higher than the land on the wind farm site and being open country noise travels from the that direction to our home. Our Concern is noise. This area called rathcobican / Ballybrittan has 50 houses and while just outside the perimeter of 1 kilometres being a mixture of older houses (no modern insulation sound proofing etc) and in the direction of the prevailing wind we fear once built noise will be a issue.

The local area representative for the windfarm John Lowry when asked about noise told us **“if you want to hear it- you can hear it” and “if we don’t want to hear we won’t”**.

If this windfarm if of strategic importance as planning experts we ask you insist on a better response , regulation or more scientific reassurance than that type of remark.

Many thanks

Peter and Eilsih Doolan
