Dear Sir / Madam,

We wish to make a number of observations regarding the above mentioned project.

- 1 The proposed turbines are huge and unsightly and will have a negative visual impact on the environment. We will be looking directly at them as they are proposed to be between our house and Charleville and will obstruct our view of the beautiful Ballyhoura mountains.
- 2 Our house will be devalued by their presence.
- 3 We will be exposed to the constant noise and shadow flicker from these huge turbines which I fear will affect our health and wellbeing. We are both in our late 60's.
- 4 The construction phase will cause huge disruption with heavy traffic in both Charleville and Bruree. Traffic will increase on our access road L8607 as people will try to avoid O'Rourke's Cross on the N 20 which is already an accident black spot. The L 8607 is narrow and twisty and unable to cope with extra traffic or heavy traffic safely.
- 5 There is a long history of flooding on to the N20 at Creggane from the river Maigue. I fear the proposed turbines construction will add to this flooding issue and cause huge disruption to traffic on the N 20.

Thank you for your consideration of our observations,

Yours sincerely,

Brendan Mc Kiernan
