To whom it may concern,

I am writing my observation concerning Garrane Green Energy Wind Farm, proposed for the townlands of Garrane, Ballynagold and Creggan, Co Limerick.

The reference number is 323635

I object to this proposed infrastructure development on the ground of the proposed size of such wind turbines, we live and farm in a pristine environment in the Golden Vale also renowned for its tourist attractiveness. Such turbines will negatively impact the aesthetic appearance of our idyllic green area and

2

fields. Said turbines are four times taller than Charleville Church and have a blade diameter 150M more than three times the church height. Such a travesty will negatively impact the appearance of the area. Noise pollution is a serious consideration as the low-frequency hum will emit both day and night. Such appearance and noise will negatively impact our personal space, our farm, our animals and our farmhouse.

Our home will be at least 14% devalued due to the close proximity to such wind turbines, all mine will be apparent from our windows and a blot on our personal environment
our family mental health

will be negatively impacted by the stress and anxiety of such close proximity to nine gigantic wind turbines.

Our ecosystems, a prime rural environment will be severely impacted for wildlife that thrives in this biodiverse area. Hawks, swans, foxes and bats to name a few such species.

We live close to the lethal M20, where crashes occur each week. Traffic disruption with heavy commercial vehicles will exacerbate the danger to life and limbs on this major route between Limerick and Cork.

The Lyons family have lived and worked in the Knockanacodig area for 150 years and this proposed development is

a retrograde step in providing green energy. The location is densely populated and people and their well being plus their livelihoods must be taken into account

Please reject this proposed 9 Turbine Wind Farm and locate it at a more sparsely populated, high ground area.

Hope my considerations will be taken into account.

yours faithfully
