5. Please describe the grounds of your appeal (planning reasons and arguments). You can type or write them in the space below or you can attach them separately.

I live approximately 800 metres from the proposed turbine 10. I have lived here all my life and therefore grown up appreciating the wide life rich environment. A huge concern of mine is the impact this development would have on the local environment, the destruction of the natural habitat throughout construction and the lasting impact on the surrounding wildlife. The preservation of bog land has been promoted significantly in recent years to correlate with our EU mandated environmental goals and this development would be at odds with such an objective.

The risk of flooding is quite significant due to the underground rivers in the area which could damage land surrounding the delegated construction zone, posing a threat to people's livelihoods.

The proposed construction would permanently alter the local landscape, which is currently peaceful and natural, causing it to become industrial in nature. The visual intrusion would not only cause landscape degradation but also increase sensory overload.

Unfortunately there has been a lack of engagement from the developers with the surrounding residents. Due to employment commitments I was unable to attend the clinic in Tuam. Outside of this clinic there has been no contact from the developers. Information was delivered through the letterbox, without waiting to answer any questions.

I had hoped to live here long term and remain in the community where I grew up however, as someone who has sensory issues, this development would severely impact my ability to do so. The future I had envisaged now does not seem possible as the choice has been taken out of my hands due

to an industrial scale development in a rural area without taking into consideration the impact on the surrounding residents.

It is for these reasons that I respectfully ask that this application is refused.

Thank you for considering my submission.

Yours sincerely,

Leah Daly.
