Re: Objection to Sranclou Windfarm ACP Ref <sup>323699</sup> ~~828699~~

Dear Sir/Madam,

We wish to acknowledge an objection to the proposed Sranclou Windfarm ACP Ref. <sup>323699</sup> ~~828699~~ We live at TOBBEROE KILCONNY TUAM CO. GALWAY at approximately 800 metres from proposed development site. We are concerned about the impact such project will have on our home, our environment and quality of life.

The home could be subject to flooding, exposed to relentless noise and <sup>SHADOW</sup> ~~shade~~ Flickering.

Wild life Habitat will be destroyed, and the carbon footprint increased.

Our area at the moment is a peaceful, healthy an environment, where people are happy and can sleep in peace and we would like it to remain so.

If this development proceeds, property will devalue and households will be left with untold losses

My wife and myself have heart + lung problems and this project would be of no benefit to us

Signed Brendan MOTTIN

Mary MOTTIN
