Re: for a period of 25 years for the continued operation and expansion of an existing quarry for extraction of limestone rock An Environmental Impact Assessment Report (EIAR) was submitted with the application at Isertkelly North, Kilchreest, Loughrea, Co. Galway, H62E820
Date: 9th November 2025

On the 4th September 2025 Galway County Council granted permission with conditions to Isertkelly Ltd for the above-mentioned development.

On 30th September 2025, the Commission received a first party appeal against conditions 8, 16 and 17 from Collins Boyd Engineers and Architects.

Condition 8 and 17 relates to General Development Contribution under Section 48, to which the Applicant/Developer shall pay a development contribution of €30,000 and €118,898.00 to Galway County Council in accordance with the General Development Contribution Scheme made in accordance with Section 48 of the Planning and Development Act 2000 as amended.

Section 48(10) (b) provides that an appeal may be brought to the Board where an applicant for permission under section 34 considers that the terms of the scheme have not been properly applied in respect of any condition laid down by the Planning Authority.

I would consider that the appeal against conditions 8 and 17 valid having met the criteria of the said section.

The appeal was circulated to the Planning Authority on 1st October 2025. The last date for responses to the appeal was the 28th October 2025.
