**Re: 10 year planning permission for Ballinlee Wind Farm consisting of 17 no. wind turbines, a permanent 110kV substation and ancillary development. Located in Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.**

To Whom It May Concern,

I Josephine O'Leary, write in connection with the above listed planning application at Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

We wish to object strongly to this proposal and ask that the Board refuse planning permission.

Some of our summarised observations and concerns are as follows:

There will be visual intrusion on my daily walks around Bruff which will lead to the loss of enjoyment from my walks.

There will be a big loss of biodiversity and disruption to wildlife habitats in the area with new roadways and particularly a bridge being built over the river. There will also be disturbance to the swans in Lough Fur who spend part of the winter in the fields in Camas North

There will also be a devaluation of all the properties around and in Bruff. Also planning permissions for new houses will be difficult to obtain for our young people. We don't want Bruff to be turned into a town which only has an older population

We strongly urge that this development be rejected for the reasons outlined above.

Kind Regards,

Name: Josephine O'Leary
