Date: 8/11/25.

Re: 10-year planning permission for Ballinlee Wind Farm consisting of 17 no. wind turbines, a permanent 110kV substation; underground electric cabling systems between the wind farm site and connection point at existing Killonan 220/110kV substation, and ancillary development. Located in Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

To Whom It May Concern,

~~✗~~ We Mairead & Michael Woulfe. write in connection with the above listed planning application at Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybané and other townlands in County Limerick.

~~✗~~ We recognise the importance of wind energy in meeting Ireland's National renewable energy targets and addressing climate change. However, this development is unsuitable for this location and fails to take proper account of the environmental, social, and cultural impacts on the local area.

This wind farm would permanently alter the rural character of the area and expose nearby residents to health and amenity risks, devalue local properties, and threaten the long-term sustainability of our community. For these reasons, I / we ask that the Board refuse planning permission.

Some of my / our summarised individual observations and concerns are as follows:

We ^{are} ~~will~~ be living within 1km of the proposed locations of the wind turbines.

As our 2 daughters have complex medical needs which require the emergency services ~~me~~ namely the Ambulance service to access our ~~two~~ home 24/7 without delay.

The noise & Flicker would be of serious concern regarding the health & well being of our 2 daughters. ~~particularly regarding~~

The increased traffic during the construction phase would again be of huge concern especially crowd access for the emergency services & ourselves.

I / we strongly urge that this development be rejected for the reasons outlined above.

Thank you for considering this submission.

Kind Regards,
