I am objecting to the turbines to be erected in my community, for myself my children and my grandchildren who are growing up in this community. I am concerned for their health, their future in the community.

Their health can be affected by the flicker, the noise that these 525ft tall Monsters make.

They are going to drive my family away from where they were born, reared where they felt safe.

We now will have to put up with noise, dust, congestion, from these big HGV Transporting these turbine parts along with all the stones, earth & concrete etc that will be needed.

up setting foundations of houses, sheds, bridges, up setting drainage, what mess will all that create down the road.

We are living in the heart of the Golden Vale, where tourist, local people come to take in the beautiful scenery that we have, the fresh air, peace & quiet the friendly neighbours, our wild life, all of which are under threat from these monster turbines.

Who wants to look at these concrete monsters, listen to the noise and put up with the annoying flicker. These monsters will affect our wild life something that we have enjoyed and appreciated for many years in our community, our foxes, badgers, rabbits, hares, pheasants, ducks, swans, bats, birds and the list goes on, our horses, cattle, sheep, dogs etc all these are going to feel the impact from these monster turbines also.

We have great neighbours and always had, this is going to break up our community, cause uneasy

feeling between us, because some people are for having the turbine's put up on their land, and other just don't want them, along with changing our countryside, you are changing the ways we live and the friendship we have with our neighbours,

* Just stop and think what ye are destroying. Our home is our castle, we worked hard for it, we would like to feel safe, secure and enjoy our homes, and be able to pass them on down to the next generation, but we won't have the next generation, they will all up and leave because of the turbines for the next 30 yrs that are going to be present all around us.

When I say we, I am speaking for myself, my children & my grandchildren. We are not against turbines, but surely there is a more suitable place for them and not in the heart of the Golden Vale.

Máire O'Brien
Maudstown,
Droghda,
Kilcullin
Co. Kildare.

p.s. they are also devaluing our property and make it impossible to get planning permission.

please just stop and think.

Re: 10 year planning permission for Ballinlee Wind Farm consisting of 17 no. wind turbines, a permanent 110kV substation and ancillary development. Located in Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

To Whom It May Concern,

I Marion O'Brien, write in connection with the above listed planning application at Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

We wish to object strongly to this proposal and ask that the Board refuse planning permission.

Some of our summarised observations and concerns are as follows:

We strongly urge that this development be rejected for the reasons outlined above.

Kind Regards,
