

To Whom It May Concern,

I wish to respectfully object to the proposed development by Greensource/Ballinlee Green Energy for an industrial wind farm consisting of 17 turbines in our Co. Limerick community. This area is a peaceful rural environment with a close-knit community, rich wildlife, historical and social value. The proposed scale of this industrial development is completely unsuitable for our locality and poses serious environmental, social, and health concerns. The proposed site and surrounding areas are home to a wide range of wildlife including swans, badgers, foxes, and otters. Swans in particular are known to nest in nearby waterways. There is growing concern about the health impacts of living close to industrial turbines including noise, vibration, and shadow flicker effects. Several local residents already experience health difficulties, and the stress and disturbance caused by this project would only worsen their condition. This development would directly reduce our community's ability to enjoy a peaceful home life and maintain wellbeing.

This proposal threatens to destroy the rural character of our area. It would impact local walking and running groups who use nearby roads and trails, children walking or cycling to school, elderly residents and local services who depend on quiet, safe surroundings and families with autistic or sensory-sensitive members, who would be particularly affected by turbine noise and visual disturbance.

This is not an appropriate location for an industrial wind farm. It will divide our community, damage our landscape, and undermine decades of local development and pride in maintaining a safe, scenic, and welcoming place to live.

I respectfully request that this application be refused in full. Renewable energy is important, but it must be developed in suitable, remote, and environmentally robust areas, not at the expense of rural families, wildlife, and community health. The character of our Co. Limerick countryside and the wellbeing of those who live here must take priority. I respectfully submit this objection in the interest of protecting our homes, our environment, and our community for future generations.

Yours Sincerely

Muireann Murphy.

Clonbrien, Athlacca, Kilmallock, Co Limerick V35EA32
