1. Interests of the observer

I am the resident and property owner living at V35 P788 in within a few hundred metres of some of the proposed developments.

2. Grounds of observation

I have significant hearing damage that includes hyperacusis and pain hyperacusis. Noise and vibration cause huge distress and the traffic and changes to road networks and works will cause immense pain.

I also have a large brain cyst that causes difficulty in dealing with light and light flicker.

We have beautiful native wildlife that will be impacted in a really negative way.

These are some of the reasons for my objection to case PC91.320745.

Sincerely,
Noel Byrnes.
