Re: 10 year planning permission for Ballinlee Wind Farm consisting of 17 no. wind turbines, a permanent 110kV substation and ancillary development. Located in Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

To Whom It May Concern,

I Oliver O'Leary, write in connection with the above listed planning application at Ballincurra, Ballingayroure, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

We wish to object strongly to this proposal and ask that the Board refuse planning permission.

Some of our summarised observations and concerns are as follows:

There will be a visual impact on the town of Bruff with the loss of the scenic beauty that surrounds the town.

There will be huge traffic implications with local roads not being capable for the amount of trucks which will be needed to install the turbines

there will be a concern of sleep disturbance
with the constant noise

We strongly urge that this development be rejected for the reasons outlined above.

Kind Regards,

Name: *John O'Keefe*
