Re: 10 year planning permission for Ballinlee Wind Farm consisting of 17 no. wind turbines, a permanent 110kV substation and ancillary development. Located in Ballincurra, Ballingayrou, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

To Whom It May Concern,

I Tom Corkery write in connection with the above listed planning application at Ballincurra, Ballingayrou, Ballinlee North & South, Ballinrea, Ballyreesode, Camas North & South, Carrigeen, Knockuregare, Ballybane and other townlands in County Limerick.

I wish to object strongly to this proposal and ask that the Board refuse planning permission.

Some of my summarised observations and concerns are as follows:

The development is too close to my home and I have learned that the turbine make noise and cause shadow flicker which will be bad for my health

The value of my house will go down and it may not be possible for me to sell the house

This development is too big for our rural community and it will damage the amenity which we are entitles to keep for our children and neighbours.

The development is in direct contradiction to the objectives of the Limerick Development plan 2022 2028.

I strongly urge that this development be rejected for the reasons outlined above.

I request that for an Oral Hearing in relation to this wind farm application, for the reasons outlined above. In particular the proximity and impact this will have on Lough Gur, an architectural and archaeological site of international importance, and the impact on our Golden Vale's High Value Landscape. Furthermore the scale of the project and the pattern of population distribution which will have widespread impact on our local community.

Kind Regards,

Name: Tom Corkery
