Re: Strategic Infrastructure Development (SID) Planning Application– Ballinlee Wind Farm Project – Co Limerick.

Dear Sir / Madam,

The applicant should be required to engage with Shannon Airport Authority and the air navigation service provider AirNav Ireland to confirm that the proposed wind farm development and any associated cranes that would be utilised during its construction would have no impact on Instrument Flight Procedures, Communications, Navigation and Surveillance (CNS) equipment or the safety of flight operations at Shannon Airport.

In the event of planning consent being granted, the applicant should be conditioned to contact the Irish Aviation Authority to:

- (1) agree an aeronautical obstacle warning light scheme for the wind farm development,
- (2) provide as-constructed coordinates in WGS-84 format together with ground and tip height elevations at each wind turbine location and:
- (3) notify Shannon Airport Authority, AirNav Ireland and the Authority of intention to commence crane operations with at least 30 days prior notification of their erection in accordance with S.I 215 of 2005 Irish Aviation Authority (Obstacles to Aircraft in Flight) Order.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Dermot Griffin', is written over a horizontal line.
