A Chara

As a Teachta Dála for the Limerick County constituency, I wish to make this submission in support of the local community's concerns regarding the above-referenced planning application for a proposed wind farm development. This submission is also has the support of local Fianna Fail Councillor Martin Ryan.

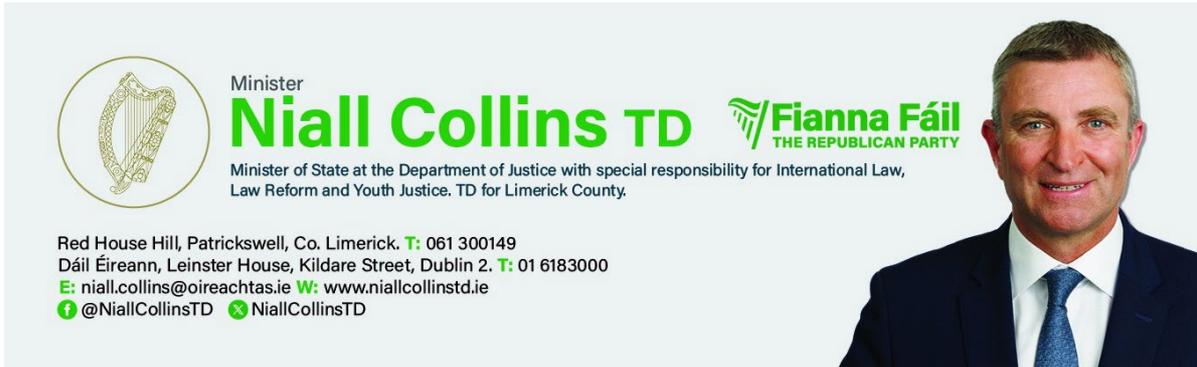

Recently, I have met with representatives of the affected community, attended several public meetings to discuss the potential impact of this development, particularly its proximity to a local schools, people's homes and other key community facilities.

The community has expressed deep concern regarding the potential health and wellbeing impacts associated with the noise and shadow flicker from wind turbines proposed to be sited so close to where people live, work, and learn.

Having engaged extensively with the local group, I am satisfied that their concerns are both genuine and evidence based. They have approached this issue with a clear focus on public health, environmental protection, and the preservation of community life.

I would therefore respectfully request that An Coimisiún Pleanála give full and careful consideration to these legitimate community concerns in its assessment of this application.

Yours sincerely,

Minister
