Observation details

5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write.

You can also insert photographs or images in this box. (See part 6 – Supporting materials for more information).

The proposed wind farm will significantly reduce the value of my residential property.

One of the turbines will be located directly in front of my property, the driveway / front facing aspect of the property.

As the proposed turbine at location (52.68739°N, 9.18390°W) will be directly in line with the end of my driveway, I won't be able to screen it.

Several of the other turbines will be visible from my property.
