Re:	**ACP-323860-25**
Description of Development:	**Permission for a 220kV AIS/220kV GIS Substation or a 110kV electricity substation, associated 220kV or 110kV underground grid connection and ancillary works.**
Location of Development:	**In the townlands of Ballyloo, Knockbower, Linkardstown, Kilballyhue, Graiguenaspiddoge, Castletown, Moyle Big, Leagh or Ballybeg, Kellistown West and Kellistown East, County Carlow.**
Applicant:	**Ballyloo Solar Farm Ltd.**

Dear Lauren,

I refer to the above and wish to advise that the additional information received by the Planning Authority on 21/09/2026 has been reviewed. It is considered that, should permission be granted for the proposed development, a condition should be attached requiring the applicant/developer to engage and liaise with the Local Authority regarding the coordination, where feasible, of the proposed underground grid connection cable associated with the development and the N80 Leagh Bends Scheme, to ensure the coordinated delivery of both projects, minimise disruption to the public and the road network and to avoid the unnecessary duplication of excavation and associated works.

The Planning Authority has no further comment to make in respect of the information received.

Yours sincerely,

Shirley O'Neill,
Administrative Officer,
Planning Department.
