Re: Section 37B SID Pre-Application Consultation - ACP Ref. 323955-25

Dear Sirs,

Following consultations under Section 37B of the Planning & Development Act 2000 (as amended) we hereby respectfully request that An Coimisiún Pleanála serves notice under Section 37B (4)(a) that it is of the opinion that the development proposed falls within the scope of paragraphs 37A(2)(a)(b) and (c) of the Act.

The development consists of a wind energy development consisting of 8 no. turbines with a Maximum Export Capacity of 57.6 MW and includes a 110kV Substation and loop-in & loop - out connection to overhead power line.

The development as proposed and shown on the attached site layout maps would constitute strategic infrastructure within the meaning of Section 37A of the Planning and Development Act 2000 (as amended).

The Proposed Development consists of:

- An 8 no. turbine wind farm and associated infrastructure;
- An off-site 110kV substation, including loop-in & loop - out connection to overhead power line located approximately 5km south east of the wind farm site itself, to the south of the R725;
- Associated 33kV interconnector cable route connecting the proposed wind farm site and proposed new off-site 110kV substation;
- Blade transition laydown area to be located approximately 5km south east of wind farm site, to the south of the R725;
- Accommodation works along proposed turbine delivery route (TDR) to facilitate turbine component delivery from Rosslare Port/Bellevue Port to the proposed Blade transition laydown area;

- Relocation of an existing 32m telecoms mast within the Wind Farm site; Foresty Felling and; all associated works related to the construction of the Proposed Development.

After receiving this Section 37(B) determination, please note that the applicant intends to enter the formal Scoping process with ACP and seek a Scoping Opinion which will address all environmental and planning considerations for the Project,

I trust the above is acceptable.

Yours sincerely,
