Supplementary Response to Submissions on the Strategic Infrastructure Development application**

Dear Sir/Madam,

On behalf of our client Uisce Éireann, Colvill House, 24-26 Talbot Street, Dublin 1, we refer to your letters of 19 May and 20 May inviting Uisce Éireann to make a submission on two further observations received in relation to the Water Supply Project Eastern and Midlands Region, namely from South Dublin County Council and Environmental Trust Ireland respectively.

We are pleased to enclose our response to the two submissions. The response comprises the Supplementary Response to Submissions Report and supporting Appendix (Appendix A). Appendix A lists the submissions and identifies where in the Submissions Report they are responded to. We enclose the Supplementary Response to Submissions Report and associated Appendix by way of electronic copy with this letter.

The Supplementary Response to Submissions Report should be read in conjunction with the previous Response to Submissions Report, issued to An Coimisiún Pleanála on 6 May 2026.

We confirm that, as requested, we have not included any additional or supplementary information and have confined our response to the issues raised in the observations received by An Coimisiún Pleanála. We have cross-referenced back to the application documentation and the original Response to Submissions Report where we have considered it helpful.

Each submission was assigned a unique reference number and reviewed through a two-stage process comprising an initial thematic review and a focused specialist assessment. This approach grouped similar issues under the relevant headings of the EIAR and supporting documents. This enabled a comprehensive and coordinated response addressing the material and substantive planning issues, rather than providing a line-by-line response to individual submissions.

I trust that everything is in order. However, if any matters arise, please do not hesitate to contact me directly.

Yours sincerely,

Simon White
