### APPLICATION TO AN COIMISIÚN PLEANÁLA FOR PERMISSION FOR DEVELOPMENT AND OPERATION OF A SOIL RECOVERY FACILITY UNDER SECTION 37E OF THE PLANNING AND DEVELOPMENT ACT 2000, AS AMENDED

We, KILMARTIN JUNCTION 14 LIMITED, intend to apply for permission under Section 37E of the Planning and Development Act 2000, as amended, for Strategic Infrastructure Development at lands located in the townland of Kilmartin, Co Wicklow (ITM: Easting 728439.5957 Northing 701058.3960).

The proposed development consists of the establishment and operation of a soil recovery facility. The facility will import approximately 2,160,000 tonnes imported inert waste, principally from development sites, which will be used to progressively infill a deep sided valley and raise ground levels up to a height of approximately 57mOD to tie in with surrounding land ground levels.

The proposed development will take place within a total site area of 17.08 hectares (ha). The infill area extent is approximately 14 ha.

The infilled valley will be progressively restored to agricultural grassland / hedgerow habitat, similar to that which existed prior to the proposed development. The lands will be returned to agricultural use.

The following temporary facilities will be installed and maintained during the life of the soil recovery facility: office and welfare facilities; weighbridge and associated weighbridge cabin; 1 no. wheel wash, 1 no. spray system wheel wash; 6 no. parking bays; 2 no. waste inspection bays and 1 no. bunded waste quarantine area; hardstanding area (vehicle movement and storage); and, surface water drainage infrastructure from hard standing and discharge to ground (including 2 no. interceptors and 2 no. soakaways), an internal access road, internal haul roads (constructed from recycled aggregates where available), security features including security gates and fencing.

The existing land entrance located on R772 will be upgraded and will be retained following the completion of the proposed development. Hedgerow removed from the field boundary opposite the existing land entrance to facilitate sightlines will be replanted following the completion of the proposed development.

A groundwater abstraction borehole will be installed and will be retained for groundwater monitoring purposes following the completion of the proposed development.

Planning permission for the proposed development is sought from An Coimisiún Pleanála for a period of up to 10 years with a further 1 year sought for restoration (planting and subsequent monitoring). The proposed development will be carried out in accordance with a waste licence from the Environmental Protection Agency or in accordance with by-product regulations, Article 27 of the European Communities (Waste Directive) Regulations 2011.

An Environmental Impact Assessment Report (EIAR) and a Stage 1 Screening for Appropriate Assessment Report have been prepared in respect of the proposed development.

The application, together with the Environmental Impact Assessment Report and Stage 1 Screening for Appropriate Assessment Report may be inspected or purchased, at a fee not exceeding the reasonable cost of making a copy, from 30 January 2026 for a period of 7 weeks up to and including 23 March 2026 at the following locations:
