## Observation details

### 5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write.

You can also insert photographs or images in this box. (See part 6 – Supporting materials for more information).

My observation is as follows

1 Inchacooley and Derrylea are a flood plane area

2 When I look out my front door that will be the first thing I see if the turbines go ahead

3 I do not agree with the road closures, if there is an emergency and 15/20 minutes could be a matter of life or death

4 Tons of concrete go into the foundation of turbines and that will add to the flooding as there will be no soakage with all that concrete

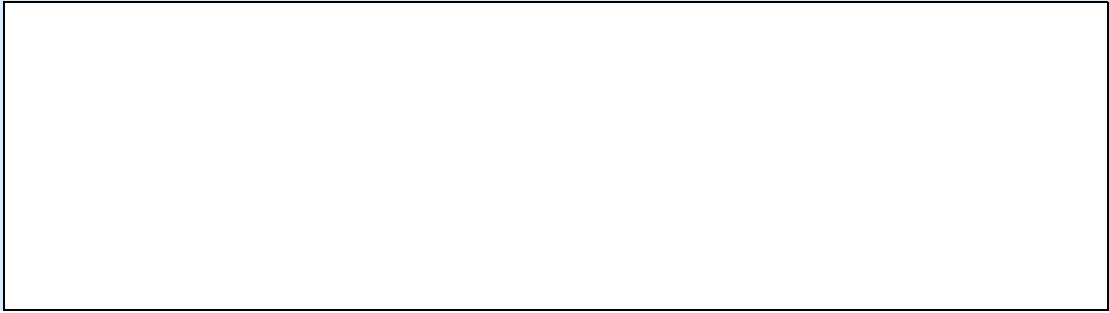

5 There will be approximately 880 km extra added to our journey every week. Who is going to compensate us for fuel and wear and tear to our vehicles.

6 My husband is attending St James hospital for cancer and I DO NOT WANT anything around me to add to his problem

7 I drive a school bus for special needs children and how can I explain to the children when they are an extra twenty minutes longer on their journey morning and evening. Those children are used to routine and every morning they will be collected twenty minutes earlier and dropped home twenty minutes later.
