A chara

The above referenced application refers to a proposal for a 10-year planning permission for the construction of 1 Battery Energy Storage System, 1 110kV AIS electrical substation building and 1 single-storey customer substation building and all associated infrastructure.

IFI would ask that planning conditions require there is no interference with, bridging, draining, or culverting of, or abstraction from, any watercourse, their banks, bed or bankside vegetation to facilitate this development without the prior approval of IFI.
