RE:Planning Reference Number 324113
Project Name: Cashla Peaker Power Plant Athenry

Date; 24th April 2026

Dear Sir or Madam,

I am writing to you as a concerned resident of Castlelambert Athenry. We believe this development should not be permitted for the following reasons set out below.

- Health issues relating to burning of fossil fuels onsite
- Negative impact on the environment and air quality
- Close proximity to a major town with numerous schools
- Impact on the local landscape with the building of large chimney stacks
- Traffic impacts during build and after commissioning

As a family we live less than 2km as the crow flies from the proposed development. Our child attends school locally and we would have serious concerns about how this development would impact our lives on a daily basis. For all the reasons outlined we strongly oppose the proposed development

Thanks and regards.
Noel and Edel Kennedy
