Good afternoon,

I am contacting you regarding unauthorised removal of the Site Notice related to the SID application (Pl. Ref. ACP-324132-26) for a 110kV GIS Substation located within the townland of Graigue, Co. Tipperary.

As shown in Image 1 and 2 below, the original site notice was erected on March 4th 2026.

However, this was subsequently removed from the location sometime between Sunday 22nd and Monday 23rd March, as shown in image 3 below.

The site notice was replaced at the earliest opportunity on Tuesday 24th March, at location shown below.

To provide better security, it has now been moved approximately 10m to the left of its original location (circled in red below), where it has been securely screwed on to a telephone pole.

We will continue to monitor the site notice, and will endeavour to replace it as soon as we are aware it has been removed/tampered with, and will notify as soon as possible.

Kindest regards,

Anthony.
