

To whom it may concern,
(Which I believe should be every Irish citizen & person living in Ireland)

This planned constitution cannot go ahead until a full excavation of this site has been done meticulously & thoroughly.

The lives of women & children must be more sacred than money. As a nation we cannot allow this to happen.

Please, whoever reads this, plead with those who actually have the decision making power to do the ethical thing & not grant planning permission on this site

Kind & hopeful regards
Cathy Quinn
