Case number 324153

This is my observation.

No Building on Bessborough. Building on these lands should not be allowed.

Why?

It is recorded that over 900 babies and 31 women have died there.

The burial places of **859** children remain unknown.

There are families directly affected here in Ireland and further afield.

We need to show empathy to all

This site should be treated with dignity, with a permanent memorial to those who died.

I oppose this development.

Again no building on Bessborough

Regards
