

Observation and objection to development of apartments at Bessborough, Cork ref324153

We are 3 sisters, and ordinary mothers from Cork. While we have no direct link to Bessborough we have always been very aware of the history of the mother and baby homes and so upset by it all.

We are shocked and appalled that planning permission has been granted for this site and **STRONGLY** object to this development. The bodies of over 900 babies and mams are buried at this site and as such we should give them the respect deserved that they never received during their short lifetimes.
