To Whom it Concerns,

I wish to lodge an observation in relation to the proposed development on the former Mother and Baby home in Bessborough, Cork.

I do not believe that the site should be built on considering the amount of graves of both women and children located on this site.

These women and children did not know peace in their lifetimes and to disturb their final resting places without consideration and regard shows a cruel callousness.

I would appreciate that this observation is considered when making a decision about the aforementioned "development".

Regards,

Victoria Lane Hennessy
