re Objection to 8 Turbines Cahermurphy  
west windfarm File no. APC 324155-26

Dear Sir/Madam,

I am writing to object in the strongest terms to these additional eight huge turbines. We already have four massive industrial turbines directly behind our house. These already spoil what was previously a beautiful open countryside view. The proposed turbines would be even closer to our house causing still further distress. In addition to being visually overbearing, they would undoubtedly have even more of a detrimental effect on our property <sup>value</sup> and those of our neighbours. They would also pose a serious threat

to wildlife, particularly hen  
harrisers in the area. Furthermore  
the impact of these turbines on  
the health of those of us  
living nearby needs to be taken  
into account. The shadow  
flicker and the noise generated  
would be a huge concern  
with regard to possible physical  
and psychological health effects.

In conclusion I trust that any  
future decisions regarding the  
proposed turbines will take  
into account the above points.

We already have more than  
enough in West Clare. The  
rate at which our skyline is  
being ruined is unbelievable and  
totally unfair!

Yours Faithfully

Mrs Ann Ansbro

A. Ansbro.
