Development Description

Proposed 110kV electrical infrastructure and connection to the National Grid at the existing 400kV Moneypoint substation

A Chara,

As the National Water Utility Uisce Éireann delivers water services pursuant to the Water Services Act (and other legislation) and in accordance with our statutory functions and ancillary responsibilities and in a manner which is consistent with public policy.

Uisce Éireann is responsible for the delivery of all public water and wastewater services in Ireland. We are committed to continuously upgrading and developing critical infrastructure to support growth in our economy, while protecting the environment and safeguarding water supplies. Our primary function is to provide clean drinking water to customers and to treat and return wastewater safely to the environment. In providing these services we play a central role in enabling economic growth, protecting both the environment and the health and safety of our customers and the wider public.

Please accept this submission in respect of the above-referenced Strategic Infrastructure Development application.

Connection(s) to Public Water and Wastewater

No new connections to Uisce Éireann's water and wastewater networks are proposed by the applicant's proposal

Protection of Existing Uisce Eireann's Assets

The applicant has engaged with Uisce Eireann's diversions team to identify a number of potential interactions with our assets along the proposed grid connection route. The applicant has entered into a diversions agreement with Uisce Éireann (DIV25356) which resolves these potential interactions to Uisce Éireann's satisfaction.

Protection of Existing Public Water Supply

No impacts to Uisce Eireann's drinking water sources are anticipated as a result of the applicants proposal.

Queries relating to the terms and observations above should be directed to planning@water.ie
