Re: ACP-324161-26

Dear Sir/Madam,

Please be advised that the attached Chief Executive Report in respect of the above SID application contains two number errors which were raised and discussed by the executive of Offaly County Council at the May Monthly meeting of Offaly County Council which took place on 18 May 2026.

Mr. James Condron, Senior Executive Planner informed the elected members of two errors that are contained within the CE Report as follows:

1. An error contained within Page 2, point (a) – This point should have included the requirement for the removal of turbines T9 and T10 in addition to turbines T5, T11, T12, T13, T14 and T15, consistent with the Chief Executive’s Recommendation as stated on page 101 of this Report and
2. The report of the Council’s Biodiversity Officer set out on page 87 of the CE report is superseded by the report of the Biodiversity Officer contained in Appendix B set out in pages 118-120 of the CE Report.

The coimisiún is respectfully requested to consider the above points of clarity in its consideration of the CE report.

Kind regards,

Paula Hanlon
Senior Planner
