17-MAY-2026

Dear Madam / Sir

I am writing to ye to inform ye all that I am totally against the plan to mount 14 Wind Turbine's in Maughanaclea West Cork.

I am totally against this Very Bad Plan in every shape and form.

I was born and raised in the Meurlagh Valley where our family and all our neighbours solely depended on our land our community to survive to raise a family in a safe healthy environment with a healthy community of healthy food and crops, animals and all nature that is needed for everyone to survive.

We were always safe because we knew our neighbours and in the poorest of times we survived as we grew our own fruit & vegetables and we shared and helped our neighbours.

We grew up leaving all about animals, flowers & bees and how they were

all essential in a healthy Valley of Nature  
I grew up where the neighbors shared  
a horse and plough to set our  
garden to feed ourselves and  
we always had good quality soil  
because we all knew what was  
going into it. We reclaimed land  
and we knew what we were doing  
as we can destroy our land by  
man made causes which is very  
serious.

With the absolute insane plan with all  
involved to be planning to bring  
plastic which is pollution into our  
land of Ireland is a pure sin  
and for anyone who doesn't understand  
the word sin study it.

China this is the country that  
the plastic is coming from.

I lived in America for a long time  
and I had Chinese people  
around me every day so  
I know all about Chinese  
people, their culture what they do etc.  
Since Ireland became part of the EU  
and people from all over the world  
and entering through our borders  
in Ireland we Irish are labeled  
from these people when we complain  
that there is too many coming in  
that we are racist. We're not  
racist at all. The Irish always

Traveled for centuries and centuries.  
 IF the chinese were smart they would think twice before trying to bring in any more Plastic/Pollution into our country because the chinese more than any other country in the whole world want's our BEEF, our Main Industry/Production in the country of Ireland is Agriculture/Farming with there plan to bring in Wind Turbines which will destroy Farming and you cant have Animals grazing in land that is destroyed by the digging up our soil so deep it completely interferes and destroys the soil it has been proven over and over cattle and all animals will not survive under or near Turbines. They wont be any production of milk or they wont be any breeding of animals as we will have no where to put them because of this insane plan of Turbines.

This destruction will destroy our land. To be a Farmer you have to understand the LAND, Water, Animals, climate how to manage the even components of soil. IF Tons of Plastic/Pollution enter our land it will destroy our land. Healthy soil consists of four

4

Components minerals 45%  
organic matter 3%  
Water 25%  
AIR 25%

Plastic/Pollution and Heavy Weights  
of this will not support our Soil  
in a healthy way. The Balanced  
composition provides the perfect  
ENVIRONMENT for Plants to grow, allowing  
roots to breathe, absorb nutrients  
and access essential moisture.

We do not want Plastic/Pollution  
put into our Soil creating  
Damage that can not be  
repaired.

We do not want to go back to  
the Famine years of conflict,  
poverty and people becoming ill  
as these Wind Turbines will  
have a serious negative effect  
of every human being in Ireland  
in a Mental, Physical,  
Spiritual, Emotional, Financial  
way which is very serious and  
all these values need to be  
taken into serious consideration.  
It will cause a lot of End of  
life NO's of people suffering in  
our Country. The ugly unbearable  
sound will be traveling through  
our Bodies our Minds enough

To kill us ~~to~~ and everyone in the  
community will all be effected  
No one will escape. There will be  
NO Happiness. No matter what  
way you look at Wind Turbines  
it is a losing game a  
SCAM. No Absolute, No  
intelligence Behind it and  
for the Blind People in  
a community that allows  
this Sin Full DISTRUCTION into  
our Land for the Reason  
that They think they will  
Make Money The Root of all  
Evil will Not get any  
Richer than what they already  
are it is clearly and truly  
a completely A Big SCAM.  
I know People innocent Pitiful  
People that signed up for  
Wind Turbines Put in the Land  
and they never got the  
Money They were Told By  
those SCAMERS that they would  
and they are falling Apart  
in side in Land and not  
even turned on or working  
or operating  
There is NO Money in the world that  
will be equal to Peace, good  
Health, good Food and a Happy

To

Healthy Community.

So all local people that is  
Reading what I have to say  
about Wind Turbines take of long  
taught out think about them  
because we all want a healthy  
future and for the generations  
to come not a end to  
everything good we live now  
and keep building.  
Like every other country we  
like to see people from  
other countries coming to  
Ireland for a holiday and  
we welcome people that respect  
our country with open arms.  
We want them to enjoy the selves  
and live peace and quietness  
and look at happy things not  
Wind Turbines.

Anyone in the right mind will  
not want to come to parts  
of Ireland that has Wind Turbines.

Their appearance is very wierd and  
very UN appealing to the eye.  
Very dangerous OBSTRUCTION / DISTRACTION  
in every shape & form.

We would want to be pure fools  
to show interest in this  
very very BAD idea of Wind Turbines

7

Coming to our Land our Country  
We Don't Want Them.

We Want Have Them.

Keep Them out Their Dangerous  
Pure Pollution & Destruction.

I will Not Support Wind Turbines.

I will Support our Country our  
People our Land our Health &  
Happiness our Animals our  
Communities our Safety our  
Planet our Present and our  
Future

If all involved in favour of Turbines coming in, We that  
all not in favour of them will get

Sincerely

Mary Kearney.

Them out of  
Ireland!

21 - May - 2026.

For all the people that fear and believe that we  
haven't enough Power and Fuel in Ireland and think  
Blaming the War Don't Worry There were WARS  
in the World Before We Were Born and they  
ended and this War will end as well.

There is only a spell in Everything. That of  
the locations where they are trying to put

This Plastic is in our organic soil The Bog  
and if we were left our own Peat we'd be

8

Fine and Warm we could still share it with Exporting it to England our Neighbour's.

My Father William Kearney used always say When People were going a bit mad I'm glad I have my senses to know the Difference between Right from Wrong.

My Mother Hannah Kearney come from Downagh and she I feel every animal's <sup>CHRISTIAN</sup> and loved everything that was brought into the kitchen from our land and my Grandfather William Kearney that came over from America

During the War years used always say A TRIVERY Neighbour is a Trivery community. So for the INNOCENT people in the Meelagh Vally that is convinced by the Foolish People that are holding them selves responsible for promising farmers or land owners Big Money to let them Plastic/Pollution into the Vally it's a Foolish MISTAKE that will badly effect you as much as the rest of our Ball. So Think about it again before its too late. Remember our Song

I'm lovely West I walk by the ocean throes a Vally that Reaches the sea. Be Proud of that and Hold on to it. Wishing everyone all the Best, God Bless Mary Kearney 22-May-2026.
