SCHEDULE	9

Purpose of Report

1. The purpose of this report is to recommend to the Chief Executive Officer the making of the proposed Uisce Éireann Compulsory Purchase (NORTH CITY ARTERIAL MAIN) Order, 2026.
2. The Order is required for the purposes of Uisce Éireann's advancing the NORTH CITY ARTERIAL MAIN project which is included in the Uisce Éireann's Capital Investment Plan and the National Water Resources Plan (NWRP).

The Functions of Uisce Éireann

3. On 1st January 2014 all functions conferred on water services authorities by the Water Services Act 2007 (other than excluded provision and section 22) were transferred to Uisce Éireann by section 7(1) of the Water Services (No 2) Act 2013. Consequently, Uisce Éireann has powers, duties and functions vested in it by the Water Services Act, 2007 to make proper provision for water services as defined in the Water Services Act, 2007. In this regard, Uisce Éireann is responsible for the provision and development of water services, including the collection, treatment and discharge of urban wastewater. I confirm that the transferred functions include all functions necessary to Uisce Éireann's adoption and carrying into effect of the NORTH CITY ARTERIAL MAIN project and to the proposed Compulsory Purchase Order.
4. As a Water Services Authority, Uisce Éireann has under Sections 31 and 32 of the Water Services Act, 2007, powers and function to provide water services including but not limited to the provision, operation or maintenance of sewers and waste water collection and treatment facilities, the construction or maintenance, or arrangement for the construction and maintenance of, water works, or waste water works and the purchasing or obtaining premises or wayleaves that are necessary to fulfil its functions under the Water Services Act, 2007.

The Community Need underlying the Scheme

The Existing Situation & the Need for the Scheme

5. The existing distribution network mainly comprises small diameter historic cast iron mains which limit supply and pressure in the area. Uisce Éireann plans to install 5.5km of strategic trunk main in the Clontarf area of Dublin City and neighbouring Fingal part of the North City Arterial Main project.

This project is critical to ensuring a secure and reliable drinking water supply to homes and businesses in North Dublin. Completion of the remaining phases of the North City Arterial Main will provide network resilience by connecting the City Centre and Cookstown/Ballymore Eustace supply to the North Fringe Water Supply Scheme at Baldoyle.

When complete, this project will support social and economic growth in North Dublin, and will enable the delivery of 12,000 new homes. The new infrastructure will reduce the risk of interruption to an estimated 160,000 properties.

Description of the Scheme & Public Interest

6. This project will involve the construction of trunk mains at the following locations:
 - Clontarf Promenade/Clontarf Road between Hollybrook Road and The Woodenbridge
 - James Larkin Road/Howth Road/Dublin Road between Causeway Road and Bayside Boulevard South Junction, including Greendale Road, Thornville Road and Kilbarrack Road.

These new trunk mains will be connected with existing mains between Fairview Park and Hollybrook Road and the Woodenbridge and Causeway Road to complete the NCAM scheme. With current demands on the water network and the supply issues being experienced by customers in the region, Uisce Éireann is keen to progress with the construction of the trunk mains.

7. The main objectives of the project are as follows: -
 - Secure water supply to areas in North Dublin
 - Improve water flow and pressure control
 - Allow for further development in the North City Area

History of Scheme Development and Statutory Processes

8. In addition, the need for NORTH CITY ARTERIAL MAIN, is required to comply with Uisce Éireann's Capital Investment Plan and the National Water Resources Plan (NWRP).
9. The North City Arterial Watermain (NCAM) is the final phase of the North Fringe Water Supply Scheme (NFWSS). The NFWSS was delivered in multiple construction contracts between 2003 and 2009. Completion of the NCAM project will finalise the construction of approximately 10km of watermain between Fairview and Sutton in North Dublin.

Uisce Éireann previously constructed 2.2km of trunk main in 2016 and 2017 as part an initial phase of the project between Fairview Park and Clontarf. This project is a continuation of those works. Once complete, the NCAM will be a critical piece of infrastructure for cross city water transfers between reservoirs in Ballymore Eustace and Leixlip.

The NCAM project is crucial for the supply of secure and reliable drinking water to homes and businesses in North Dublin City. The new infrastructure will reduce the risk of interruption of water supply to an estimated 160,000 properties. The entire NCAM pipeline will deliver up to 15 megalitres of potable water to the north city on a daily basis, with additional supply also being provided to other areas in the wider Dublin region. Its development will also ensure compliance with water quality standards by maintaining chlorine residual levels above the 0.1 mg/litre standard.

The Need for these Lands

10. These lands are needed to facilitate the construction of elements of the scheme, namely this trunk main. During the preliminary design process, numerous pipe routes were examined with the current proposed route being the most feasible however it was determined that lands not in the ownership of Uisce Éireann would be required. These lands consisted of permanent wayleaves and temporary working areas. In this regard I refer to the attached Route and Site Selection Report of Doran Consulting Limited Consulting Engineers dated January 2026.

11. The permanent wayleaves and temporary working areas required for the NORTH CITY ARTERIAL MAIN as it affects the Clontarf, Raheny and Kilbarrack areas (and to be included in the proposed Compulsory Purchase Order) are described in the schedules to the enclosed draft "Uisce Éireann Compulsory Purchase Order NORTH CITY ARTERIAL MAIN 2026" and are depicted in the following proposed Compulsory Purchase Order Drawings:

- UÉ/10053277/CPO/0001
- UÉ/10053277/CPO/0002
- UÉ/10053277/CPO/0003
- UÉ/10053277/CPO/0004
- UÉ/10053277/CPO/0005
- UÉ/10053277/CPO/0006
- UÉ/10053277/CPO/0007
- UÉ/10053277/CPO/0008

Alternatives Considered

12. An outline of the alternatives include:

- Routes through existing public roads
- Routes within existing cycleways and footpaths
- Routes through roadside verges

13. I am satisfied that all reasonable alternatives as outlined above and in the attached Route Selection Report of Doran Consulting Limited Consulting Engineers dated January 2026 have been fully considered and are not demonstrably preferable. I have concluded that the aforementioned permanent wayleaves and temporary working areas are necessary for the NORTH CITY ARTERIAL MAIN and are suitable for the purpose for which they are required.

Works are not in Contravention of the Provisions of the Statutory Development Plan

This proposed development and its related compulsory purchase order, is consistent with relevant national, regional and local planning policies. Accordingly, the application is in accordance with the proper planning and sustainable development of the area.

These Policies include:

- The most recent Dublin City Development Plan 2022 - 2028 & Fingal County Development Plan 2023 - 2029;
- The most recent Planning Guidelines for the National Planning Policy – Project Ireland 2040; and
- The Local Area Plans including Eastern & Midland Regional Assembly Regional Spatial & Economic Strategy 2019 - 2031
- National Development Plan 2021 - 2030
- Water Services Strategic Plan 2015 - 2030;
- Water Services Policy Statement 2018 - 2025;

For the following sections, please refer to Planning Report of Braniff Associates dated January 2026.

Planning Status

14. This project will involve the construction of trunk water mains at the following locations.

- Clontarf Promenade/Clontarf Road between Hollybrook Road and The Woodenbridge.
A planning application for this section has yet to be submitted. This section of the works is currently undergoing assessment and surveying to inform ecological screening which needs to be completed in advance of the planning application. It is anticipated this will be completed by spring 2026 with a proposed submission of the planning application in early Summer 2026.
- James Larkin Road/Howth Road/Dublin Road between Causeway Road and Bayside Boulevard South Junction, including Greendale Road, Thornville Road and Kilbarrack Road.
This section of the project within the council area of Dublin City Council received planning permission (App ref: WEB5455/25) on 12/12/25, with a final grant issued on 28/01/26. The planning application submitted for the small section of works within the council area of Fingal County Council (App Ref: F25A/0988E) was subject to a further information request and is still pending at the time of preparing this report.

Both sites requiring planning permission for development due to the requirement to undertake a Stage 2 Appropriate Assessment in the form of a Natura Impact Statement (NIS).

Please refer to Planning Report of Braniff Associates dated January 2026.

15. Uisce Éireann's Landowner Liaison Officer (LLO) Mr. Shane Lynch of Avison Young and Uisce Éireann's Project Manager (PM), Mr. Mark McEvoy introduced the project in person and acted as the point of contact for the landowners for any queries related to the project (not related to compensation). In 2025, the Uisce Éireann project team attended meetings of the Clontarf Flood Alleviation Scheme Joint Working Group to provide updates on the NCAM Project to DCC, elected representatives, local businesses and resident representatives.
16. Formal correspondence was also issued to the landowner as part of Uisce Éireann's engagement. The following letters were issued on the corresponding dates:

- Introduction to Project – Issued on 04 July 2024
- Introduction to Valuer – Issued on 10 July 2024
- 60 Day Letter – Issued on 28 January 2025

Regulatory Compliance

17. Having consulted with the Irish Water Asset Strategy Unit and taking into account all aspects of the Project, I am satisfied that, in developing the Project and in proposing this Compulsory Purchase Order, full account has been taken of:

- Proper Planning and Sustainable Development
- Directive 2000/60/EC (Water Framework Directive). The Project is designed to assist in facilitating the achievement of water body objectives under the Water Framework Directive with respect to wastewater treatment and effluent discharges.]
- Water Services Acts 2007 - 2013. These Acts set out the legislative context in which Uisce Éireann operates. Uisce Éireann's powers and objectives are set out under these Acts and the Project has been designed and will be implemented in line with these powers and objectives.
- The Uisce Éireann Water Services Strategic Plan. The Project advances and/or is consistent with the following objectives of the Plan – which provides for effective management of water, protect and enhance the environment, and support social and economic growth:
 - Meet Customer Expectations;
 - Ensure a Safe and Reliable Water Supply;
 - Protect and Enhance the Environment;
 - Support Social and Economic Growth; and
 - Invest in Our Future.

Conclusion

18. Attempts have been made, in the period from May 2023 to date, to acquire these permanent wayleaves and temporary working areas by agreement.
19. When it was determined that it would not be possible to acquire these permanent wayleaves and temporary working areas by agreement, it was decided to seek a Compulsory Purchase Order.
20. I am satisfied that all reasonable alternatives have been fully considered and these lands and rights over land are necessary for this scheme and suitable for the purpose for which they are required. I am also satisfied that Uisce Éireann requires to invoke the Compulsory Purchase Order procedure for the lands and rights over land required as it is unlikely that all of the foregoing could be required by agreement with the relevant Landowners with full title or otherwise in a timely fashion.
21. Accordingly, it is recommended that Uisce Éireann make the Uisce Éireann Compulsory Purchase (NORTH CITY ARTERIAL MAIN) Order, 2026.

Dated this 12 day of MARCH 2026

SIGNED:

Mr. Seamus Ryan - Chartered Engineer

SCHEDULE

PART 1 – LAND ACQUISITION

Not Applicable

PART 2 – PERMANENT WAYLEAVE

Sub-Part A – Description of Wayleave

The right for the Company, its successors in title, assigns, tenants, servants or agents, contractors or other licensees:

- (i) to construct, lay, keep, operate, maintain, renew, repair and inspect water works as defined in the Water Services Act, 2007 and all associated pipelines and all other associated physical elements used for collection, storage or treatment of water and such other works, services, facilities and other things as are necessary or expedient in relation thereto or are ancillary thereto or form part of such water works, in, on or under the land specified in Sub-Part B below, together with the right,
- (ii) to enter with all necessary vehicles, plant and machinery upon the said land at all times for any of the said purposes.

Sub-Part B – Description of Land
