Subject: Objection to Proposed Wind Turbine Development in [Location]

Dear Sir/Madam,

I am writing to formally object to the proposed installation of wind turbines in the Lacken/Ballycastle area, an area officially recognized for its outstanding and unique natural beauty.

This location is not only a cherished landscape of significant environmental and aesthetic value but also a vital part of our cultural heritage and local identity. The introduction of industrial-scale wind turbines would severely disrupt the natural skyline, diminish the visual appeal, and negatively impact the tranquillity that defines this area.

Areas of outstanding natural beauty serve an important role in preserving biodiversity and supporting tourism that relies on pristine landscapes. Wind turbines, while contributing to renewable energy goals, must be carefully sited to avoid causing irreversible harm to such sensitive environments.

In light of these points, I urge the planning authority to reject this application or seek alternative sites that do not compromise the integrity of this precious area.

Thank you for considering this objection.

Yours faithfully,

Peter Leslie Griffiths
