Development Location: Barroe, Carrad More, Cloonawillin, Killala, Ballinteean and Carrowreagh Co Mayo

Development Description: The construction of up to 16 no. wind turbines (Tirawley Wind Farm), including a 110kV sub-station on the site, an energy storage system in the form of a battery array located within container units, and an underground 110kV grid connection to Tawnaghmore 110 kV Substation.

A Chara,

As the National Water Utility Uisce Éireann delivers water services pursuant to the Water Services Act (and other legislation) and in accordance with our statutory functions and ancillary responsibilities and in a manner which is consistent with public policy.

Uisce Éireann is responsible for the delivery of all public water and wastewater services in Ireland. We are committed to continuously upgrading and developing critical infrastructure to support growth in our economy, while protecting the environment and safeguarding water supplies. Our primary function is to provide clean drinking water to customers and to treat and return wastewater safely to the environment. In providing these services we play a central role in enabling economic growth, protecting both the environment and the health and safety of our customers and the wider public.

Please accept this submission in respect of the above-referenced strategic infrastructure development application.

The applicant/operator shall comply with the Water Framework Directive and River Basin Management Plan objectives to ensure that the development will not negatively impact on the water quality of source/receiving waters during both construction and operational phases.

The applicant/operator shall meet the requirements of EIA Directive 2014/52/EU.

The applicant/operator shall comply with the requirements of the Groundwater Directive, Article 6(1) of Directive 2000/60/EC.

Stiúrthóirí / Directors: Jerry Grant (Cathaoirleach / Chairperson), Niall Gleeson (POF / CEO), Gerard Britchfield, Douglas Millican, Michael Nolan, Patricia King, Eileen Maher, Cathy Mannion, Paul Reid, Michael Walsh.

Oifig Chláraithe / Registered Office: Teach Colvill, 24-26 Sráid Thalbóid, Baile Átha Cliath 1, D01 NP86 / Colvill House, 24-26 Talbot Street, Dublin, Ireland D01NP86
Is cuideachta ghníomhaíochta ainmnithe atá faoi theorainn scaireanna é Uisce Éireann / Uisce Éireann is a designated activity company, limited by shares.
Cláraithe in Éirinn Uimh.: 530363 / Registered in Ireland No.: 530363.

In the interest of Public Health and Environmental Sustainability the applicant/operator will comply with best practice Groundwater Protection Schemes set in the GSI Groundwater Protection Schemes.

Where the applicant proposes to connect to a public water/wastewater network operated by Uisce Éireann, the applicant shall sign a connection agreement with Uisce Éireann prior to the commencement of the development and adhere to the standards and conditions set out in that agreement.

In the interest of Public Health and Environmental Sustainability, Uisce Éireann Infrastructure capacity requirements and proposed connections to the Water and Wastewater Infrastructure will be subject to the constraints of the Uisce Éireann Capital Investment Programme.

All development shall be carried out in compliance with Uisce Éireann's Standard Details and Codes of Practice.

Infrastructure Connections

There are no connections to Uisce Éireann infrastructure proposed as part of the development.

Uisce Éireann Assets

Protection of drinking water sources from potentially adverse impacts is a priority for Uisce Éireann. It is Uisce Éireann's current policy to maintain safe and secure drinking water supplies and ensure that development will not give rise to any deterioration in water quality. It is also a requirement of the Water Framework Directive that waters used for the abstraction of drinking water are protected to avoid deterioration in quality. Development proposals shall not impact public drinking water sources and/or abstraction points.

There are no surface water abstractions located within the footprint of the proposed wind farm site or within a 2 km radius of its boundaries.

There are no works proposed within any Zone of Contribution or no surface water abstractions within the vicinity of the proposed grid connection route.

To ensure adequate protection of water facilities, Uisce Éireann recommends the following;

1. The applicant shall ensure there is no deterioration in surface and ground water quality as a result of any pre-construction works and / or the operation of and/or the decommissioning of the development as proposed.
2. There shall be no build over of public infrastructure from these proposals. Separation distances as per Uisce Éireann's Standards Codes & Practices shall be achieved where public infrastructure is in situ within and/or adjacent to site boundaries*.
3. The development shall not impact public drinking water sources and/or abstraction point(s) and/or abstraction infrastructure**.
4. The applicant shall ensure compliance with the proposed mitigation measures outlined in the EIAR and the CEMP to ensure that there will be no negative impact to any of Uisce Éireann's Assets and / or infrastructure which may be in proximity to the development.

Queries relating to the terms and observations above should be directed to planning@water.ie

Yours sincerely,

Dermot Phelan
Connections and Developer Services

Advisory Note(s):

*Uisce Éireann does not permit build over of its assets. Separation distances from public infrastructure, as per Uisce Éireann's Standards Codes and Practices must be achieved. It is the applicant's responsibility to submit a diversion enquiry to Uisce Éireann Diversions Section (diversions@water.ie) prior to construction, where a potential build over of public assets is in question and/or where the applicants proposals cannot achieve separation distances from public infrastructure as per UÉ Standards & Codes of Practice.

** Protection of drinking water source(s) from potentially adverse impacts is a priority for Uisce Éireann. It is Uisce Éireann's current policy to maintain safe and secure drinking water supplies and ensure that development will not give rise to any deterioration in water quality. Development proposals shall not impact public drinking water sources and/or abstraction point(s). It is also a requirement of the Water Framework Directive that waters used for the abstraction of drinking water are protected to avoid deterioration in quality. Development proposals shall not impact public drinking water sources and/or abstraction point(s).

Any person discharging trade effluent** to a sewer, must have a Trade Effluent License issued pursuant to section 16 of the Local Government (Water Pollution) Act, 1977 (as amended). More information and an application form for a Trade Effluent License can be found at the following link: <https://www.water.ie/business/trade-effluent/about/> . Trade effluent is defined in the Local Government (Water Pollution) Act, 1977 (as amended).

Uisce Éireann does not permit surface waters into the public sewer network.
