Murphy Geospatial Disclaimer
 All reasonable endeavours have been used to capture the required data in the survey to the agreed standards of accuracy. Where features have been observed due to a lack of access, the areas will be annotated as 'UTS (Unable To Survey)'. The Company shall not be liable for any damages or consequential losses arising from the reliance on survey information beyond its specified scale and accuracy, or survey information used for purposes other than that stated in the Contract of Works.
 Any concerns with the survey should be raised with Murphy Geospatial, who will endeavour to promptly provide a remedy. The Client shall not seek recourse through any third party until such time as Murphy Geospatial has had the opportunity to address any concerns raised.
