Submission in relation to the Ten T Priority Route Improvement Project Donegal Section 2
N56/N13 Letterkenny to Manorcunningham

Alan and Wendy Wylie, Drumany, Letterkenny, Co Donegal

We wish to submit our observations/objections to the proposed CPOs Reference numbers 2043E.1060.0177 and 2043E.112 Residential Land. Both areas outlined in these CPOs directly impact our home. The reduction of the front garden area for the development of the L-5784 Connector Road will increase traffic noise and undermine our privacy by bringing traffic closer to our dwelling house. The works required include the demolition of a boundary wall and pillar that is environmentally detrimental.

The position of this connector road divides our farm as it limits our access to our main farm. We believe that this part of the project is unnecessary as there is easy access to the new road development by using an existing road structure, reducing construction costs and the environmental impact of the overall project. The construction of the L5784 road is proposed to solely provide access to the existing N13 road which will be used for local traffic only after the construction of the new road project.

If the proposal to build the L5784 access road proceeds as part of the overall project we would ask that the position of the road is reviewed as part of the planning process so that the green field opposite the proposed CPOs is utilised for the road alignment rather than the destruction of the front of our family home.
