To Whom It May Concern,

I am writing to provide an update regarding the site notices for the Coom Green Energy Park Grid Connection application (Application Reference: ACP-324274-26)

Our team is actively monitoring the site notices associated with this application to ensure they remain fully legible and in place for the required statutory period.

During a routine weekly inspection today, we noted that a further two of the site notices had been tampered with. We immediately replaced both notices to ensure continuous compliance with planning regulations.

We wanted to bring this to your attention so that you are fully informed of the situation and our ongoing maintenance of the notices.

We are committed to ensuring full visibility of the application and would appreciate the opportunity to rectify any further issues should your inspectors note any missing or damaged notices during their assessment.

We maintain a detailed monitoring tracker for these site notices which we update weekly. Please let me know if you would like us to share a copy of this record for your files.

Kind Regards,

**FEHILY
TIMONEY**
