Case Reference: ACP-322876-25

Dear Sirs,

Re: Objection to the Above Planning Application

We, as a family, wish to formally state our objection to the above planning application.

We understand that the planning application relating to the first section of this proposed cable route, which was submitted to Cork County Council, has been deemed invalid. As this is the case, we cannot accept that this section of the proposed route should proceed, as it cannot be connected to the first section without the necessary planning approval.

Furthermore, residents and businesses located along the proposed route have made repeated attempts to contact the company to obtain further information regarding the project. Unfortunately, these attempts have been ignored. While flyers were distributed to properties along the route, no meaningful explanation was provided regarding the purpose of the project, despite residents seeking clarification.

We are also concerned that roads along the proposed route are expected to be closed, yet there has been little or no communication with the affected residents and businesses regarding the timing, duration, or impact of these closures.

The company's failure to engage with the local community demonstrates a significant lack of respect for those who live and work in the affected areas. Residents' concerns have not been acknowledged, and there has been an unacceptable absence of meaningful consultation or communication throughout this process.

For these reasons, we respectfully request that this planning application be refused.

Yours faithfully,

We the undersigned object to this cable route.

Kathleen Heffernan.

Chris Heffernan.
