Planning and Development Act 2000, as amended Notice of Direct Planning Application to An Coimisiún Pleanála Strategic Infrastructure Development Offaly and Tipperary County Council

In accordance with Section 37E of the Planning and Development Act 2000, as amended, we, RWE Renewables Ireland Ltd., give notice of our intention to make an application to An Coimisiún Pleanála (the "Commission") for permission for a period of 10 years (being the period within which the permitted development must be carried out), for development comprising the construction of a wind farm and related works within the townlands of Cloonaheen, Ballincor Demesne, and Curalanty, Co. Offaly, and Clonfree, Castletown and Cronekill, Co. Tipperary.

This development is covered by the provisions of the Renewable Energy Directive III (Directive 2023/2413) and the planning application is subject to a completeness check under section 37JA of the Planning and Development Act 2000, as amended and inserted by the European Union (Planning and Development) (Renewable Energy) Regulations 2025, as amended.

Certain details of the proposed development are unconfirmed in this planning application and an opinion on unconfirmed details from the Commission (Case Reference: ACP Ref. 322126-25) pursuant to section 37CD of the Planning and Development Act 2000 (as amended) accompanies this planning application. The details unconfirmed in this application are the turbine tip height, rotor diameter and hub height. The range of parameters under which the turbine dimensions will fall are specified on this site notice.

The proposed project is a renewable energy development and will constitute the provision of:

- Assembly of 11 Wind Turbine Generators (including tower sections, nacelle, hub, rotor blades) with an estimated capacity of 61.6 to 77 MW and a blade tip height between 179.5 and 180 m, rotor diameter between 149 to 163 m, hub height of between 98.5 and 105 m;
- Associated hardstanding and turbine foundations at each turbine location;
- Works along the public road and private land for a 12.23 km grid connection to the existing Dallow 110 kV substation including installation of 17 joint bays along the grid connection route ("GCR") which runs across the townlands of Cronekill, Castletown, Cornhill, Caherhoereigh, Pallas, Kyleneamuck, Tinnakilly, Ballyloughnane, Killeen, Croghan, in Co. Tipperary and Townparks, Dovegrove, Woodfield or Tullynisk, and Clondallow in Co. Offaly;
- Turbine Delivery Accommodation works, road surfacing works, temporary wall/vegetation removal, load bearing surface will be laid to provide a minimum 4.5 m running width and a 5.5 m clearance width for turbine delivery at Sharavogue crossroads, Sharavogue, Co. Offaly;
- Upgrading of existing access tracks, construction of new founded access roads and floating roads. Total length of access roads is 9.7 km, and upgrades of two site entrances on R492 and L1071;
- Erection of 104 m permanent meteorological mast including lightning pole;
- All associated excavation, earthworks and spoil management, Surface water drainage system and sediment control; Installation of new clear span watercourse or drain crossings on proposed wind farm site; Excavation and restoration of three borrow pits (borrow pit 1 to borrow pit 3) and one peat deposition area;
- Wheel wash, security fencing & hut;
- Four Temporary construction compounds including site office and staff facilities;
- Installation of 33 kV medium voltage electrical and communication cabling underground between the proposed turbines and the proposed on-site substation and associated ancillary works; All electrical plant and infrastructure and grid ancillary services equipment;
- 110 kV electricity on-site substation and switch rooms; including one EirGrid control building containing welfare facilities and storeroom, wastewater and rainwater holding tank;
- One Independent Power Producer (IPP) control building containing HV switch room, site offices, welfare facilities, wastewater holding tank;
- One Battery energy storage system (BESS) control building containing worker welfare facilities and equipment store, wastewater holding tank; 90 BESS container units, inverters, underground water storage tank and associated works;
- All associated infrastructure and services including site works and temporary construction signage;
- Operational stage site signage;
- All related site works and ancillary development including berms, landscaping, and soil excavation;
- Tree felling (7.2 ha) and hedgerow removal (1.1 km) to facilitate construction and operation of the proposed project; and
- Biodiversity enhancement including hedgerow replanting (1.3 km), peatland enhancement and tree planting.

A 35-year operational life from the date of full commissioning of the wind farm is being sought for all associated works, together with the subsequent decommissioning of those works at the end of that operational period. The proposed onsite substation and grid connection will remain as permanent infrastructure forming part of the Irish national grid network and are not subject to the decommissioning requirement.

This application is accompanied by an Environmental Impact Assessment Report (EIAR) and a Natura Impact Statement (NIS) which pertain to the overall project as outlined above.

The planning application, the Environmental Impact Assessment Report (EIAR), and the Natura Impact Statement (NIS) may be inspected, free of charge or purchased for a specific fee not exceeding the reasonable cost of making a copy, during public opening hours for a period of 7 weeks commencing on **15th May 2026** at the following locations:
