Case Reference PAX92.324279 – Proposed Ballincor Wind Farm Development and Associated Road and Infrastructure Works

Dear Sir/Madam,

I object, in the strongest possible terms, to these grotesque wind turbines. They are not only going to ruin an area of scenic beauty — they are ecologically and aesthetically disastrous.

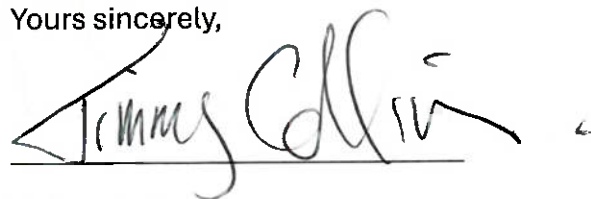

I live approximately 1km from the existing turbines at Knockshegowna. More often than not, I am kept awake at night by the constant swish of the blades. I will have to endure these turbines for the rest of my life. The prospect of even more turbines, closer still, is terrifying and devastating

I also suffer from tinnitus. The constant low-frequency noise from turbines is not a background irritation for someone in my position. It is relentless and there is no escape from it inside my own home.

This is a beautiful area. These turbines will kill it. The damage is permanent. It is irreversible. Once the landscape is industrialised on this scale, there is nothing left of it for future generations.

I respectfully but firmly request that planning permission be refused.

Yours sincerely,

Timmy Collins
